GENERAL COMMENTS

Redemptions from Tax Sales:

It is again called to your attention that redemptions from tax sales should be made directly to the Tax Collector rather than to the Selectmen as has been the practice. This is in accordance with the provisions of Section 27, Chapter 80, of the Revised Laws of New Hampshire.

Unexpended Balance — Trust Fund Income:

The Blanchard, Moses Hall and D. O. Atwood Trusts provide that income therefrom be used for highways and sidewalks, less \$200.00 per annum (income from Moses Hall Fund) which is earmarked for another specific purpose. In 1949, the total income from these trusts turned over to the Town by the Trustee was \$1,804.67. This amount was expended as follows:

Highways	\$ 342 08
Sidewalks	1,024 79
Private Beneficiary	200 00
	<hr/>
	\$1,566 87

The unexpended balance of \$237.80 has been included as a liability item in the balance sheet of December 31, 1949, under the heading of "Unexpended Balance of Trust Fund Income Reserved for Specific Purposes."

Conclusion:

The accounts of all officials of the Town which we examined were found in good condition and the accounting procedure, with exceptions as indicated herein, conformed to the uniform system prescribed by this Division.

TOWN OF SANDWICH

We extend our thanks to the officials of the Town of Sandwich for their assistance during the course of the audit.

Yours very truly,
HAROLD G. FOWLER
Director

Division of Municipal Accounting
State Tax Commission

Kenneth L. Cowan, Auditor
John T. Flanders, Accountant

Certificate of Audit

February 16, 1950

This is to certify that we have audited the accounts and records of the Town of Sandwich for the fiscal year ended December 31, 1949, and found them to be in good order. In our opinion the Exhibits included herewith reflect the true financial condition of the Town at December 31, 1949 and the results of operations for the year ended on that date.

Respectfully submitted,
HAROLD G. FOWLER
Director

Division of Municipal Accounting
State Tax Commission

Kenneth L. Cowan, Auditor

In the Spring the Trustees offered a first and second prize of books to the winner in the Quinby School English class who submitted the best list of twelve books that the contestant would choose for his or her own library. The winners of this contest chose the following books from the winning lists as their prizes:—Jane Eyre and The Best Loved Poems of American People.

Prizes of books were given by the Trustees during the Autumn book week.

The Library Trustees wish to thank the many patrons and friends for their generous book gifts received during the year 1949.

Report of The Forest Fire Warden

Forest Fires—Our Most Shameful Waste

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 per cent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

- 1 Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
- 2 Securing the required written permit from the warden when the ground is not covered with snow.

T O W N O F S A N D W I C H

3 Insisting that others be careful and comply with burning requirements.

4 Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

Statistics Pertaining To The Lakes Region

Sandwich is in the Lakes Region)

The Lakes Region is the most important of the six New Hampshire regions with respect to the recreation business.

This is shown by the division of assessed values of recreational property, by Regions, from a survey made by the State Planning and Development Commission.

Lakes Region 32%
Monadnock Region 14%
Seacoast Region 14%
White Mountain Region 18%
Dartmouth-Lake Sunapee Region 12%
Merrimac Valley Region 10%

The valuation of recreational property in the Lakes Region is 15 million dollars, compared to the total of 50 million in the state. In addition to which the valuation of Summer Homes in the Lakes Region is 12 million dollars, which is one-third of the state total.

Almost one-half of the Boys and Girls camps in New Hampshire are in the Lakes Region, this refers to 70 camps in the Region with a valuation of \$750,000.00.

There are 6,000 motor boats, registered in the Lakes Region, which is more than $\frac{1}{2}$ of all boats in New Hampshire.

The gross income to the Lakes Region from the recreational business is thirty million dollars.

Recreation is the principal industry in the Lakes Region, although we are strong industrially with 15% of the population of the State our manufacturers produce 15% of the valuation of manufactured goods.

The Lakes Region comprises three cities and

TOWN OF SANDWICH

thirty-nine towns, with a population of 71,887 and assessed valuation of \$112,900,000.00.

The Lakes Region Association was organized in 1936 to promote the growth and prosperity of the Region in every way possible.

During these fourteen years we have published and distributed more than a million booklets and folders, throughout the Eastern part of the country, and in many other states. In addition to which we have distributed thousands of local books and folders.

We sponsor each year the 4-H Fair at the Belknap Recreational Area and distributed \$500.00 in cash prizes to the contestants.

We conduct an annual Photo Contest and distribute cash prizes for the best pictures submitted. This project not only attracts many out of state people to our Region, but it gives us splendid pictures for our publications.

We are in constant cooperation with the New England Council, the State Planning & Development Commission, and many travel agencies.

When the Lakes Region Association was formed the Recreation business in the Region was determined by the State as sixteen million dollars, it now is thirty million dollars.

During the years we have been instrumental in attracting several new manufacturers to the Region.

We have assisted several of our towns in solving their problems and are anxious to help any town at any time.

The people of the state recognize by their votes that they approve the Regional setup, as 85% of all of the towns make appropriations to their Association annually and for the last three years every town in

TOWN OF SANDWICH

the Monadnock Region and all but two towns in the Mountain Region made their appropriation.

Being principally a recreational and residential Region it is interesting to note according to a national survey made by the Curtis Publishing Company that over eight billion dollars is spent each year for Recreation. Which sum is divided as follows:

- 44% for Hotels, Motor Courts & Restaurants
- 24% for Transportation and gasoline
- 22% for Retail Stores
- 10% for amusements, sports and miscellaneous purposes.

also that in 1949 approximately nine million dollars was spent for advertising and publicity by the several states.

All organizations in New Hampshire spent approximately \$175,000.00.

If we are to continue to get our share of the business, which benefits every citizen we must continue to publicize the Region.

Every town has much to gain by cooperation with the Lakes Region Association, which is endorsed by the State and the Governor.

The Lakes Region Association has been able to secure a few new small industries but have lost several large ones owing to the fact that desirable space was not available. If all towns that have vacant space will notify the executive secretary giving full particulars we might be able to find an occupant.

The executive secretary has attended many meetings in the state and New England and has distributed booklets and folders to sportsman shows in Boston, New York and at expositions throughout New England. He has answered thousands of inquiries on all subjects and has distributed to real estate dealers many inquiries that have resulted in bringing to the region thousands of dollars of new assessed valuation.

We ask that our towns call on the Lakes Region Association for assistance at any time.

School Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Sandwich qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 11th day of March 1950, at two o'clock in the afternoon to act upon the following subjects:

- 1 To choose a Moderator for the coming year.
- 2 To choose a Clerk for the ensuing year.
- 3 To choose a Member of the School Board for the ensuing three years.
- 4 To choose a Treasurer for the ensuing year.
- 5 To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.
- 6 To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.
- 7 To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
- 8 To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the Selectmen the balance

TOWN OF SANDWICH

between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9 To see if the School District will vote to raise and appropriate the sum of four thousand dollars (\$4000.00) to be used for the completion of the central school, this amount to be refunded to the Town upon the sale of the old schools, and to take any vote relating thereto.

10 To transact any other business that may legally come before the meeting.

Given under our hands at said Sandwich this 13th day of February 1950.

HOLIDAYS

October 12, 1950	Columbus Day
November 23, 24, 1950	Thanksgiving Day
May 30, 1951	Memorial Day

Total number of school days according to above calendar is 183. The minimum allowed by state board regulations is 180. This means that days lost due to bad weather or other causes must not exceed 3. Any days missed, in excess of 3, must be made up, probably by lengthening the school term after June 15.

Time taken during the year for institutes or attendance by teachers at educational meetings, not to exceed 8 days, need not be made up.

Report of the School Nurse

October through December, 1949

Physical examinations were made on 95 school children, including Quimby School.

Defects Found

Teeth	44
Enlarged tonsils	11
Tonsillectomy advised	3
Wax in ears	4
Speech	4

Defects under correction are not included in this group. The need for dental care tops the list in all districts. Some of the decay of teeth has probably been checked by the fluoride treatments of last year, but the need for continued dental treatment is definite.

Plans are under way for dental clinics as soon as the traveling permits.

During October routine inspections were made of all children and instruction in hygiene was given at this time.

The nurse has been approached regarding milk for the children. Now that pasteurized milk is available, it is to be hoped plans for milk will be made soon.

New scales with a measuring device for heights have been purchased by the committee.

I appreciate the patience and help received from all.

Respectfully submitted,
ANN WALKER, R. N.

Superintendent's Report

School Marks and Promotions

About fifty years ago in the rural schools of America, each pupil learned at his own rate. Children were not designated as first graders, third graders, eighth graders, etc. Nine years was generally allowed for the courses in the elementary grades; but with the short terms of school at that time, many attended more than nine years.

In the city schools, pupils generally were grouped according to grade. Text books were written for the first grade, for the third grade, etc. Gradually this practice spread into the rural schools also, so pupils were enrolled in the register as being classified by grades. Promotions from grade to grade used to be based upon marks in various subjects. The length of the elementary school course was shortened to eight years.

For a long time teachers have realized that each pupil is different from every other pupil that any group of pupils in one grade shows wide variations in achievement, attitude and maturity. Giving all school marks on a percentage basis assumes that they are alike and that the difference is in effort. Since this is a false assumption, we have often questioned whether or not marks should ever have been given and whether our present system of grading and promotion is at all justifiable.

This year we are making a start in the direction of eliminating marks and promotions. For the present, this change affects only the primary grades. The proposal is to have each pupil progress at his own rate through work hitherto covered in the first three grades. Most pupils may be able to complete this work in three years; some may take four; occasionally a child can complete it in two. Parents can be kept in-

formed by letters and through conferences with the teacher as to the progress which their children are making. It is hoped that this plan will contribute toward more natural growth for each child and that it will eliminate many tearful occasions caused by non-promotion or by comparing one pupil's work with another's. Whether or not it is practical to continue this new plan through the entire elementary years is a question. If it proves to be successful on the primary level after two or three years of trial, it may be desirable to continue the plan through the sixth grade at that time.

Improvement of Teachers in Service

It is definitely recommended that every five years each teacher shall devote one summer to advanced study in connection with her work, or shall complete an equivalent number of extension courses. The state board has also encouraged teachers to devote time during the year to improvement of their methods by stating that schools may be closed for this purpose for not more than eight days during any school year. In April of 1949, schools in this supervisory union were closed for one week and all teachers were privileged to attend a workshop on the subject of conservation education. This workshop was held in Meredith and was guided by members of the faculty at Plymouth Teachers College, members of the state department of education, and a number of capable experts in the fields of soil conservation, forestry and water resources. The purpose of these sessions was to emphasize to the teachers the necessity on the part of all citizens to guard our nation's bank account of natural resources so the future generations will not find the soil, forests and water supply insufficient. The teachers who attended seemed very enthusiastic as to the practical nature of this course in this week's workshop. Plans formulated from this workshop are being carried out in the schools, both in the elementary grades and on the high school level.

TOWN OF SANDWICH

School boards of the union have indicated their approval of the workshop plan and voted to continue this type of teacher training in the future.

Changes in Personnel

There are two new members on our teaching force this year. Mrs. Augusta Downs accepted a position elsewhere in the state and Miss Ethel Smith has retired from the profession. In their places, Miss Lois Gibbons teaches the primary room and Miss Ruth Chapman, the grammar room at the Center Sandwich school. Miss Jean Readio, our former music teacher, also accepted a position elsewhere and has been replaced by Miss Marilyn Drake.

Miss Eva A. Heney, R. N., our school nurse who has served us for several years, has retired from the profession and has been replaced by Mrs. Ann Walker, R. N.

Our New Centralized School

We started our school term in September in the same old buildings in the hope that sometime during the year the new centralized school might be ready and we could transfer our classes to the new location. Delay in securing structural steel makes it unlikely that we can use the new building before April or May and it would seem unwise to move into a new location for only a few weeks at the end of the year. We do not expect to occupy it now until September, 1950.
